FREE of cost.

Fundamentals of Risk Management

An introductory distance learning course in risk management

Fundamentals of Risk Management course has been created for those looking to explore the basics of risk management. Along with covering the most important core principles and theoretical teachings, the course is packed with essential industry insights and explores the role risk management plays in public and private sectors alike.

Course Objectives

The OCRM Fundamentals of Risk Management course has been designed to lay an initial educational foundation, upon which an extraordinary career may then be built. Though primarily theoretical, the content and teachings the course contains are geared directly toward practical application and professional development.

As the course focuses on the core principles and practices of ERM, candidates explore risk management strategies. All information is presented with newcomers to risk management in mind and broken down into concise topics.

Method of Evaluation

Candidates will be evaluated by way of an assignment at the end of each chapter, which must be passed in order to move onto the next. Once again however, there are no deadlines or time restrictions whatsoever. Upon completion of the final chapter, candidates can claim full OCRM Certificate of Completion in Fundamentals of Risk Management.

Enrolment

This outstanding distance learning opportunity is open for enrolment 365 days a year and from anywhere in the world. Apply online on our website to enrol today. www.ocrmglobal.com

Course Fee: £0.00
